2016 Year End Internet Marketing & Google PPC Update For Long Island

New York, NY: As noted in prior releases, central to all American Energy Coalition (AEC) Marketing Activities is the AEC Website, and driving folks to the Site for a more complete message is always the goal of any AEC marketing initiative. AEC website traffic has grown steadily for the last several years peaking in October 2015 at about 2,400 visitors that month. There is definitely a seasonality to the numbers from month to month, but even so, there was a noticeable decline in the number of visits beginning in October 2015 and continuing through October 2016 before picking up again in November and December 2016. Social Media

AEC continues to maintain its presence on Social Media (Facebook, Twitter, YouTube and Google+) and State Oilheat Associations frequently re-tweet some AEC tweets. AEC has also begun to re-tweet some of Association tweets.

Google Pay Per Click Campaign

The AEC Pay Per Click Campaign begun in June 2014 continues to generate impressive results with State Oilheat Associations in Connecticut, Long Island, Massachusetts (intermittently), New York City, Pennsylvania and Rhode Island participating. Long Island has participated continuously since June 2014 with a monthly budget of \$1,000 per month.

As we have seen with website visits, we have also seen a temporary dip in the number of Google searches from AEC's list of key words and key phrases. As with website visits, there is a level seasonality to these searches, but nonetheless, during the second and third quarter of 2016, we did see some geographic areas not fully utilizing their monthly PPC budgets. Long Island was not one of those geographic areas that did not fully spend their monthly Budget. Long Islands Budget begins at 12:01 Midnight daily, and once the daily budget of approximately \$33 is expended; the AEC Google Ad no longer appears. The average time of day when the Long Island Budget was expended was approximately 8:00 PM. See the table below for all areas for 2016:
